Contact Info & Policies

If you would like to use any equipment listed within this catalogue, during your session within the Centre for Simulation-Based Learning (CSBL), please complete our online Resource Booking Form:

https://simulation.mcmaster.ca/book_csbl_resource.html

Requests for equipment are reviewed by the Simulation Team on an individual basis.

Please provide a minimum of 4-6 weeks for high-fidelity simulation requests. For all other requests, please kindly provide 5 business days' notice. Training to operate certain CSBL equipment can be arranged prior to use.

Special permission must be granted for those wishing to use equipment outside the CSBL and it is dependent on the equipment being requested. After hours, weekend and student use is possible with the presence of a faculty member.

For questions regarding equipment, please contact Simulation Lab Technician:

Harvey - The Cardiopulmonary Patient Simulator

The full-size manikin realistically simulates nearly any cardiac disease at the touch of a button by varying blood pressure, pulses, heart sounds and murmurs.

Partial Task Trainers

Partial Task Trainers are the simulator of choice when the goal of a simulation is to practice a psychomotor skill in isolation. They allow learners to practice one specific task, such as endotracheal intubation or venous cannulation.
